**Organic Animal Husbandry:
The way of the past becoming
the way to the future!**

Rediscover the lost art of organic animal husbandry. Learn the successful, gentle and proven methods of times past that were used by our forefathers before conventional farming took over the industry.

This veterinarian presentation shares real life stories and visuals of birthing, examinations and medicinal applications and contains practical information for everyone, whether you have a backyard "farm" in the city or a commercial family farm in the country.

This dual video seminar includes a hands-on clinic...exciting, fast paced lectures with visual aids and live animals...veterinarian and audience testimonials... all pertaining to cows, sheep, goats, horses and more!

Numerous exciting How-to's
in the areas of

- Birthing • Reproduction
- Parasites • Acidosis
- Udder Edema • Infections
- Soils • Minerals and much, much more...

Eliminate the dependence on antibiotics, caustic chemicals and hormones.

Dr. "Paul" and Dan share detailed examples of how the Organic Tools (Tinctures, Garlic, Aloe, Homeopathy, Probiotics, etc.) help the body's systems; Immune, Digestive, Endocrine, Respiratory and many more.
